

TRUE PICK Fastball™

Incredible Technologies' True Pick Fastball™ debuts an innovative new game mechanic on IT's Class II ETG system, one year after the system's launch in U.S. markets.

True Pick Fastball selects a single winning numbered ball from 38 balls within an enclosed blower. A familiar roulette-style betting layout allows for fast player adaptation and up to twice as many games played per hour. Fastball game play allows more games per hour compared to the average Roulette game.

With proven success and reliability, IT's Class II ETG system continues to evolve with IT's commitment to innovation.

FEATURING:

- First-to-Market Class II ETG System
- 38 ball call with single ball release and single pattern
- Bingo history and interim pattern check menu
- 4K graphics display
- Number history and game statistics
- Automated game play
- Normal and strategy screen views
