

Prism Spark joins Incredible Technologies' hardware lineup as the perfect addition to the Prism cabinet catalog.

IT's first single-screen curved cabinet brings simplicity and elegance to the floor with a 43" UHD monitor, paired with a 27" topper for easy player visibility and game recognition. Game-integrated lights surround the display for an eye-catching presentation, but even more importantly: gameplay is designed for the core gambler with proven math models.

Ignite your floor and place Spark in a variety of configurations, including LED wedge compatible pods.
